

CYBER. MARYLAND 2019

December 5-6, 2019

The Hyatt Regency, Baltimore Inner Harbor, MD

www.CyberMarylandConference.com

CYBER•MARYLAND 2019

welcome

On behalf of the CyberMaryland Conference Board, Partners, Sponsors, Speakers, Exhibitors and Production Team, I am pleased to invite you to the 2019 CyberMaryland Conference.

This year's theme, *Cyber Threats, Nevermore: Unifying the Cyber Community in Maryland and Beyond* highlights Maryland as the point of connection for cybersecurity throughout the United States. Faced with constant threats, Maryland has continued to lead the charge in cyber defense. This year's theme pays homage to a historic Maryland icon – famous poet and cryptographer Edgar Allan Poe – while emphasizing Maryland's bright future through the development of its cyber ecosystem.

Constant collaboration between industry, academia and government have created advanced technologies that have made Maryland the leader in cyber defense. Paramount discussions regarding deep fake videos, policy framework, workforce development and information sharing have been added to the conversation this year.

The 2019 conference is organized into key themes to highlight Maryland's strengths – innovation, education and workforce development – as well as guide the conversation in the crucial emerging areas of risk, connected devices and policy.

The CyberMaryland Committee hopes you will participate this year as an industry exhibitor or sponsor. Local Maryland businesses, as well as national ones, are welcome. We'll see you there!

David Powell

Chairperson,

Cyber Threats, *Nevermore:*

Unifying the Cyber Community in Maryland & Beyond

The CyberMaryland Conference is an annual two-day event presented by the Federal Business Council (FBC) in conjunction with academia, government and private industry organizations. The 2019 theme, *Cyber Threats, Nevermore: Unifying the Cyber Community in Maryland and Beyond*, encompasses the event's intent to highlight Maryland as the world's foremost cybersecurity innovator throughout history. The CyberMaryland Conference provides unique trust-building opportunities for stakeholders, information sharing for improved situational awareness and resilience, networking for business development, and communication opportunities to further unify cyber assets across Maryland.

CyberMaryland Conference Overview

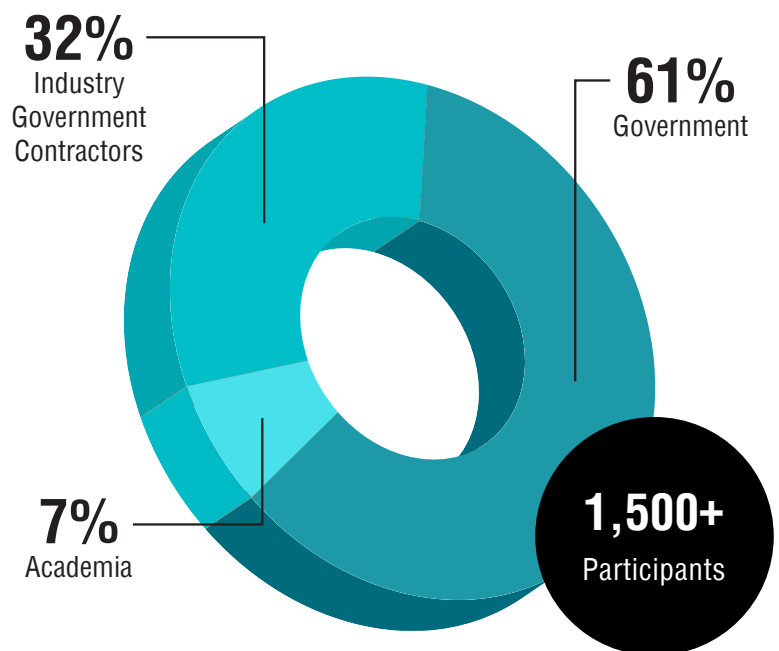

Who are the Attendees?

Past conference attendees include registration from:

- BAE Systems
- Cisco
- City of Baltimore
- Department of Defense (DoD)
- Department of Homeland Security (DHS)
- Department of Treasury (DoT)
- DISA
- GEICO
- Hood College Graduate School
- IBM
- Leidos
- Lockheed Martin
- NASA
- National Security Agency (NSA)
- Northrop Grumman Corp
- The Washington Post
- UMBC Training Centers
- University of Maryland
- US Air Force
- US Army
- US CyberCommand
- US Navy

Past Titles Included:

- CEO
- CIO
- CISO
- CTO
- Cyber Analyst
- Director of Business Development
- Intelligence Specialist
- IT Security Specialist
- Network Engineer
- Program Director
- Program Manager
- Senior Data Analyst

Bringing Maryland's Cybersecurity Professionals Together

The conference is designed to highlight the many cybersecurity assets located in Maryland including: federal agencies, academic institutions, a skilled workforce and business resources. The conference is optimal to further develop the culture of innovation and entrepreneurship within the state as well as expand and enhance the resources, relationships, talent and opportunities that make Maryland the ideal place for cybersecurity businesses.

MD *CyberMaryland* WHY ATTEND?

Maryland is the epicenter of information security and innovation. CyberMaryland has brought the community together since its launch in 2011. Maryland is home to an increasingly influential cyber community, including a high density of cyber engineers coming from the nation's top security agencies. That makes this event a not-to-be-missed opportunity for both national and Maryland-based industry partners. CyberMaryland has consistently attracted top leaders, experts and key decision makers through its unrivaled content.

In 2018:

- The conference hosted **more than 1,500 of the nation's top cyber leaders and professionals**, including federal, state and local government agencies; academic institutions; cybersecurity entrepreneurs; and industry leaders of research and development.
- Attendees represented more than **50 government agencies, 250 cyber companies, colleges and universities and international partners** such as Australia and Canada.

2018 Past Event Highlights

- 1,500+ Participants
- 40+ Exhibitors
- 25+ Breakout Sessions
- 4 Keynote Speakers

New This Year

- A reconfigured floorplan that promotes networking and ease of access for both attendees and exhibitors.
- New sponsorships are available for companies to increase their brand awareness.
- Expanded promotional options are included in every new marketing service package and sponsorship.
- New state-of-the-art exhibiting kiosks.

Conference exhibitors can showcase and demo their latest cybersecurity innovations and services to the best and brightest the cybersecurity industry has to offer.
